

Email Options...

Email is a convenient way for us to contact our valued clients. However, using your email address to contact you with pertinent information is a matter of common sense and courtesy between you and Mara Nicandro, RMT.

*In short, that means we are willing to send you email messages **IF AND ONLY IF THAT IS PERFECTLY ACCEPTABLE TO YOU!***

We use real human beings to receive and reply to email messages received. Sure, we could use an automated process where some computer hardware and software "reads" your email message and attempts to send you a meaningful reply. But that goes against the very nature of our business philosophy; Human beings relate to other human beings - NOT computer hardware and/or software.

That's why each and every email message we receive is read by a real human being.

*Please note that we **ABSOLUTELY DO NOT** sell, give away, loan or make available email addresses from our valued clients to anyone. We use them, with our client's permission, to send information of interest to you.*
